# Delivery Outcomes

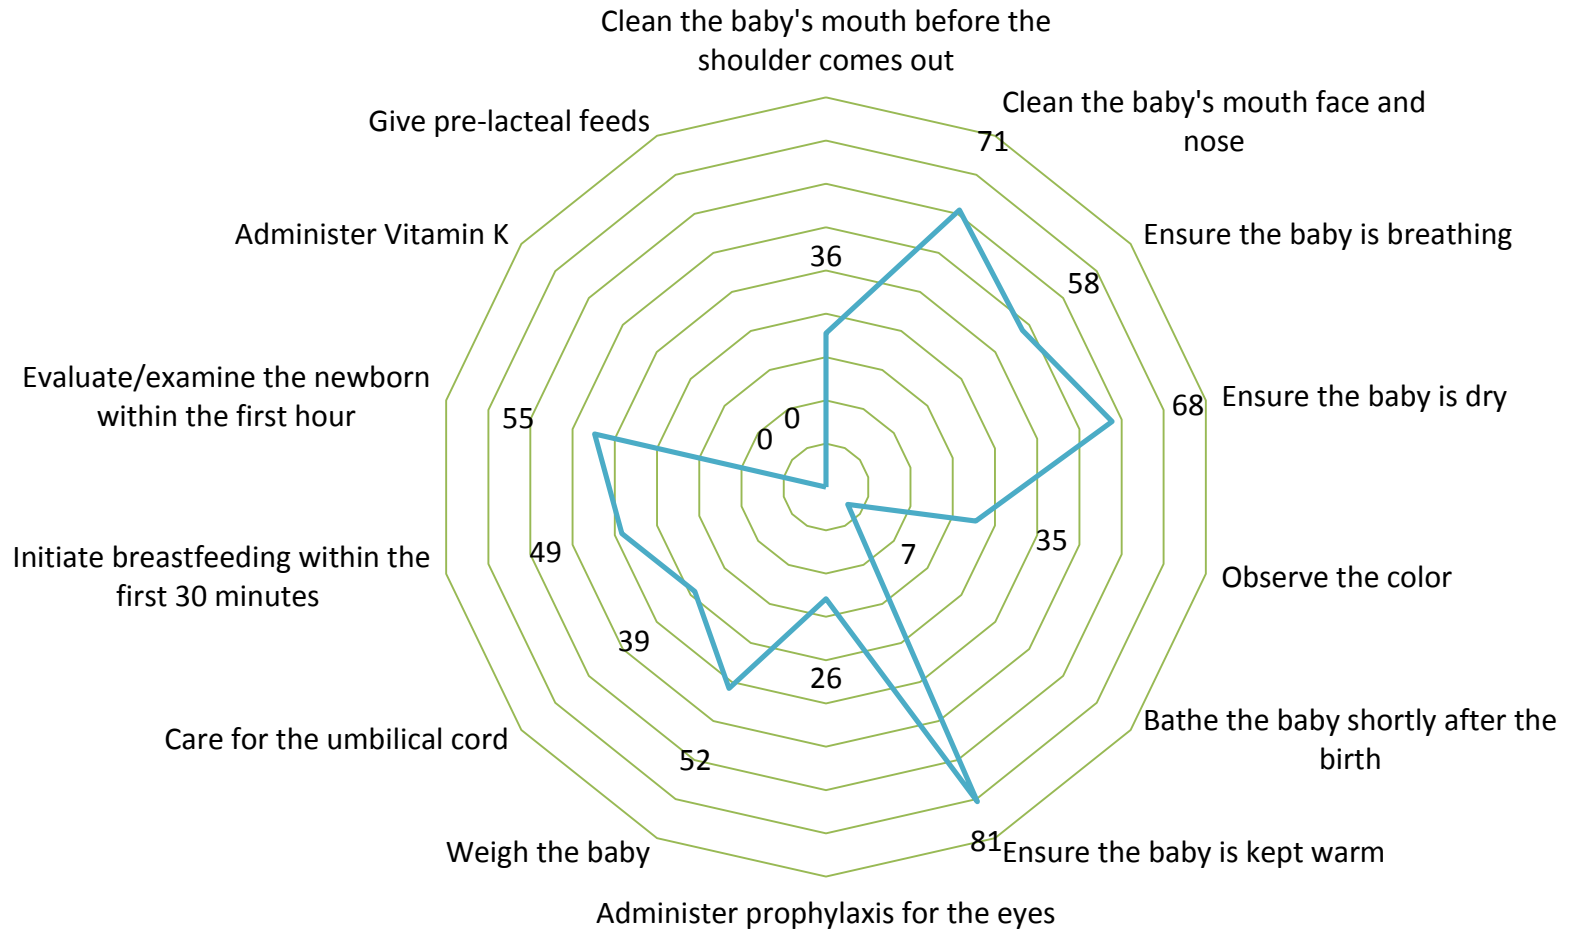

Type of facility	% of live births	Neonatal deaths per 1000 LB Fresh still birth per 1000 deliveries		% Macerated stillbirths	Total deaths / 1000 live birth % asphyxial deaths(total live births as denominator)	% LBW (total live births as denominator)	% NBW (total live births as denominator)	% Preterm(total live births as denominator)	Sex ratio (females per 1000 males)	% of SC/ST births	
24 x 7 PHC Average	99.2	2.8	9.8	0.0	12.6	0.1	7.9	87.1	0.1	1109	27.8
Sub Centre Average	99.0	11.5	5.4	0.0	16.9	0.0	4.7	86.2	0.3	1109	41.3
Community Health Centre Average	99.5	0	6.5	0	7	0	7	88.8	0.3	583	17.75
District Hospital Average	98.5	0	10	1	19.5	0	17.5	76.0	0.1	888	0
PHC Average	100	0	0	0	0	2.8	16.4	83.8	0.06	804	33.2
Sub District Hospital Average	100.0	0.6	0.1	0.0	1.0	2.4	16.1	84.1	0.1	820	32.0
<b>District Average</b>	<b>99.2</b>	<b>3.0</b>	<b>6.4</b>	<b>0.2</b>	<b>11.4</b>	<b>0.5</b>	<b>10.6</b>	<b>84.4</b>	<b>0.2</b>	<b>902</b>	<b>23.8</b>

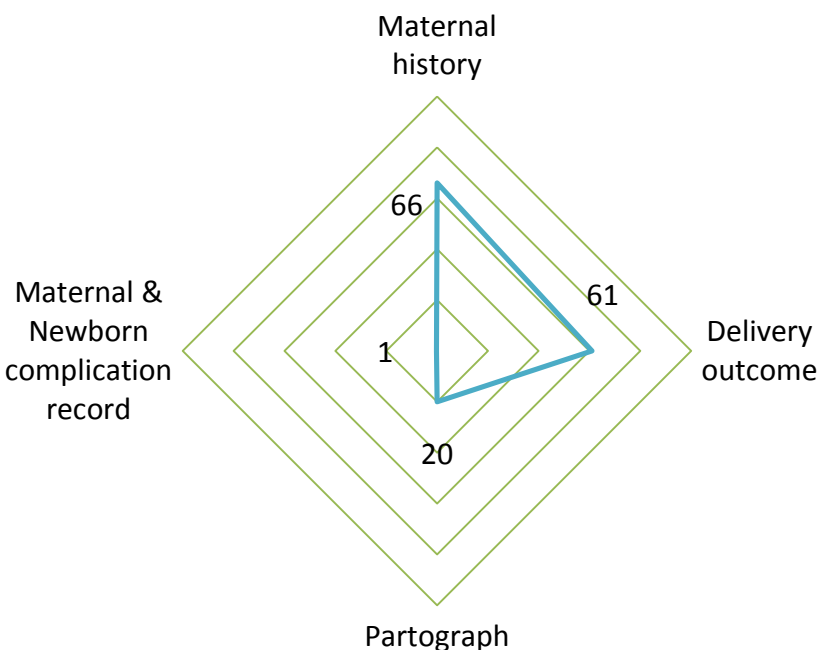

Reported neonatal deaths  
11.4% of live births

Equity is a clear issue

# Care at birth

# Record keeping

## Source

Delivery register & Individual case record

## Maternal history

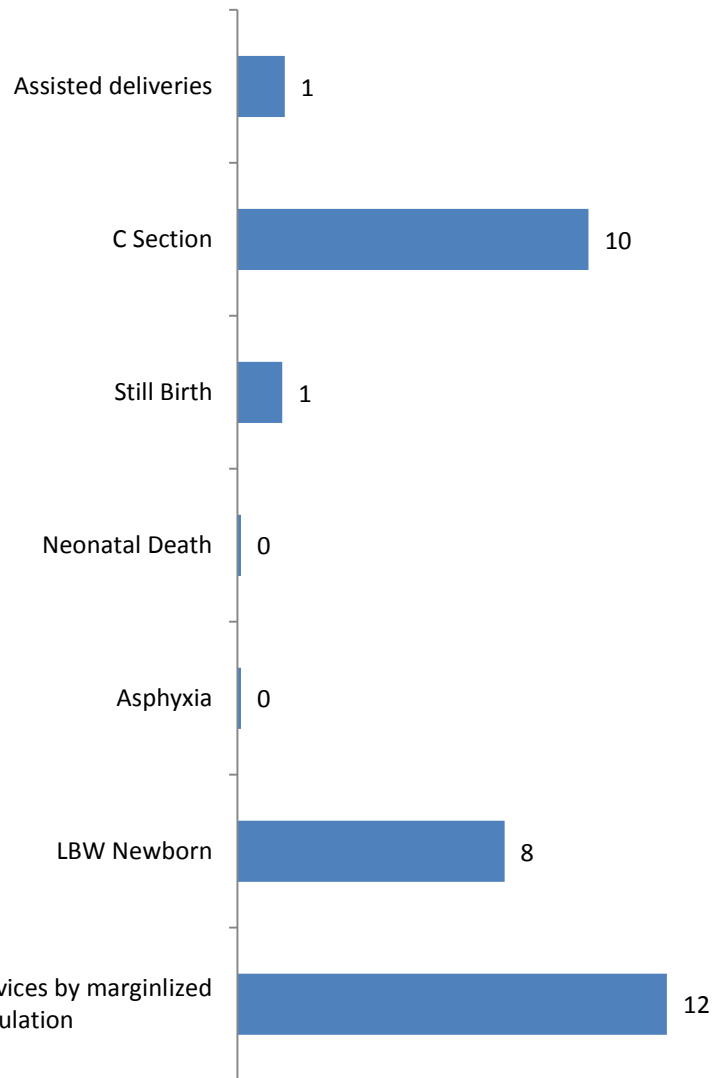

Age, Name, Gravida, Para & Complications

## Delivery outcome

Live birth/Still birth, Term/Preterm, Birth weight/LBW & Male/Female

**Newborn complication** Asphyxia, Sepsis, Hypothermia, Feeding problem & Congenital anomalies

# Record keeping

Number of deliveries	6192
Number of assisted deliveries	83
Number of C section	617
Number of live birth	6135
Number of neonatal death	6
Number of fresh still birth	27
Number of Macerated still birth	51
Number of asphyxiated newborn	6
Number of newborn <2.5 Kg	465
Number of deliveries < 37 weeks	633
Number of Male	3277
Number of Female	2858
Number of SC/ST	755
